

7.3 institutional distinctiveness

“IF DAUGHTER EDUCATED IT IS EQUIVALENT TO AN EDUCATIONAL INSTITUTION”

Motivating Parents for encouraging their daughters to pursue primary to higher education.

It is very important in the overall progress and development of the institution. With this view, our college has its mission statement accordingly we always try to function uniquely, innovatively, and distinctively from the other institutions. As far as our Mission and Vision is concerned, college always tries to implement the distinctiveness in the work. Our college has a large number of students from the surrounding villages. The number of girl students is from villages. Most of the students from rural areas & poor background, but they are not poor in talent, knowledge, and humility. Our college staff identify their talent and encourage them as per our mission statement, ‘we aim to bring the girl students into the mainstream of higher education’. The main aim was to provide an opportunity for the rural students of this area especially the rural girl students to pursue education for their development and progress of the family. The girl student gets a stage and dais to develop their academic as well as professional, cultural, social consciousness, alertness, and responsiveness. The college organizes the women empowerment programs for making them confident enough to struggle with the battle of life. Various eminent woman personalities are being invited for on several issues. Special health-related Seminars, a workshop was organized and health check-up camps have been organized to find out the health issues. Sports had allowed them to actively participate in Kho-Kho, Chess, Volleyball, shuttle badminton, etc. The college always considers the dam affected background students as a central input and strength of the institution.

Our founder president Late Shri. Vijayendraji Kabra was a freedom fighter who gives value to education; he had an ideology ‘Education for all’. He nurtured the dream of all-round excellence in education for the middle-class society. The institution stands apart from all other colleges by placing greater emphasis on producing professional students by providing value-based education and enabling the students to face challenges in modern life. The institute aims at instilling a sense of self-discipline and accountability among students and developing a respect for democratic, ethical, and moral values.

The institutions have become pioneers in providing paradigmatic excellence & quality education intertwining tradition with technology & morality with modernizations. The institute has been catering to the needs of the middle & lower class by providing the latest facilities & amenities to all. We also offer different category awards in terms of scholarship to economically backward students such as:

“Women Empowerment Scholarship”.

Though the college is unaided the fee structure is as per University norms. No donation is taken for any admission. Several students get scholarships from Government as per norms, which further ensures better education of the economically challenged students. Teachers are motivated to participate in various programs which helps them to develop professionally and also upgrade themselves in academics. Qualified Faculty members are appointed, which ensures high quality of teachers, ensuring quality education under a nominal fee structure. Students at the UG degree courses take up Internships in industries and pursue their projects which gives them hands-on training in their field of interest.

2) PARENTS DAY

“We are committed to providing Quality Education with a mission to strengthen the minds and expand intellect of our students and to empower them with additional skills so that they could accept and face the challenges of the 21st century and also accept the social responsibilities”. To fulfill the mission, our college NSS Unit started celebrating PARENTS DAY every year for giving the message to their parents as their first love. On the occasion of Parents Day various programs

like singing, expression of their thoughts, and love for their parents. Also through this program, we try to inculcate the importance of Sacrifice, Beliefs, and Values of Parents in their children, which helps to determine the person they “Grow to be”. A child is like a sponge that absorbs their parent’s thoughts and viewpoints that will stay with them for the rest of their life. Parents frame their position under the guise of “Unconditional Love” for their child. It is also important for a child when he grows up he also expresses his love for their parents. That creates a good bonding between a child and a parent.
